Friday 27 Jan 2012, 12:15 - 13:15 in

Stora hörsalen at Ingvar Kamprad Designcentrum (IKDC) Sölvegatan 26

32 globally oriented graduates needed for steep career climbing

Novo Nordisk is looking for 32 talented, young, top-of-class graduates for the 2012 Base Camp, the Novo Nordisk Graduate Programme. Base Camp is a platform for steep career climbing and a unique change for bringing your skills, your talent and your master's degree to life in a global landscape.

Start your career climb

Do you have a recent master degree, and do you want a successful career in one of the world's leading pharmaceutical companies? If yes, then the Novo Nordisk Graduate Programme is what you are looking for.

Each programme has a duration of two years and is designed to fast-track your career in Novo Nordisk - as a key person, as a trusted specialist or as a future leader. Through 3-4 job rotations, you will gather international experience, be exposed to various types of managements and start building a strong network of ambitious, professional and dedicated colleagues. Choose one of 9 different tracks within **Business Management & Marketing, Finance & Business IT or R&D**, and get the opportunity to develop your own individual career in a strong professional network.

Meet us and Learn more!

Take the chance to learn more about us and the Novo Nordisk Graduate program when we will visit Lund University. Representatives from the various tracks will tell you more about Novo Nordisk and the Graduate program, including sharing personal experience and you will also have the chance to interact and ask questions to us in the following Q&A session.

Lunch baguette will be available to the first 60 students!

For questions related to the seminar please contact Susanne Linné (Susanne.Linne@er.lu.se) from Karriärservice, Lund University or Beatrice Yang (btcy@novonordisk.com) from Novo Nordisk.

Are you ready?

Visit our website to meet graduates, read blogs and get more information.

Apply online at www.novonordisk.com/graduates before 12 February 2012 and start working from September 2012.

About Novo Nordisk

Novo Nordisk is a world leader in diabetes care. Diabetes currently affects more than 366 million people, and this number is expected to grow to 552 million by 2030. We are committed to changing diabetes, which is why we employ more than 32.000 people in some 80 countries. Being a financially solid company with strong values, we have provided double-digit growth the previous eight years and continue to expand.
